Aspiring Full-Stack Developer with expertise in MERN stack and AI-based applications, with hands-on experience in building scalable, user-centric web solutions. Proficient in developing end-to-end applications with expertise in frontend, backend, and real-time project implementation.

ACADEMIC QUALIFICATION

- B.E. Computer Science – Saveetha School of Engineering, Chennai, Tamil Nadu, India | CGPA: 8.3 | 2026
- HSC, SSLC – Nazareth Matriculation Higher Secondary School, Chennai, Tamil Nadu, India | 2022

TECHNICAL SKILLS

Languages: JavaScript, Python, C, C++, Java | Frontend: HTML, CSS, React | Backend: Node.js, Express | Databases: MySQL, MongoDB | Tools: Git, GitHub, VS Code

INTERNSHIP EXPERIENCE

Web Development Intern (Full-Stack) | I8 Solutions
June 2025 – August 2025 (3 Months)
Link: https://i8solutionssite.vercel.app/

- Developed and deployed responsive company website using HTML, CSS, JavaScript, Bootstrap.
- Implemented interactive features and improved UI/UX for better user engagement and accessibility.
- Integrated backend functionality using Node.js and Express, including contact form handling.
- Worked on real-time client-based projects, contributing to frontend development and performance optimization.
- Used Git, Postman, and debugging tools for development and testing.

PERSONAL PROJECTS

Personal Portfolio (Website) | Portfolio: https://karthick-portfolio-flax.vercel.app/

- Built responsive portfolio using Node.js, Express, EJS, HTML/CSS with dark mode and dynamic routing.
- Integrated contact form with Nodemailer and deployed on Render.

Apex Coach – AI Powered Mock Interview Platform | 2025

Link: https://apexcoach-ai-powered-mock-interview.vercel.app/

GitHub: https://github.com/karthick-192211057/ApexCoach-AI-Powered-Mock-Interview

- Developed AI-based interview platform using React, TypeScript, and Gemini API.
- Implemented resume-based question generation, scoring, and feedback system.
- Enabled real-time evaluation and performance tracking.

ACADEMIC PROJECT

PEFR Titration Tracker – AI-Powered Asthma Management App | 2026

GitHub: https://github.com/karthick-192211057/PEFR-TitrationTracker

- Built Android app for asthma monitoring with PEFR tracking and dashboards.
- Integrated FastAPI backend with JWT authentication and ML-based predictions.
- Enabled real-time data tracking and clinical decision support.

CERTIFICATIONS

- Oracle Certified Professional: Java SE 17 Developer
- Metaverse 2025 – National Level 24 Hours Hackathon
- NPTEL – Internet of Things | Computer Vision | Software Testing
- Data Analytics and Visualization Virtual Job Simulation – Accenture

PAPER PRESENTATIONS

- Decision Tree model for startup prediction – Saveetha School of Engineering.
- ANN-based intrusion detection system for IoT – Saveetha School of Engineering.
